

1. References

- [ALISHA SELENA](#) - The presence of a huge image is eye-catching
- [Kristina Plummer](#) - The use of the color white makes the website look clean
- [Danny Falcon](#) - Feels exactly like a resume in webpage form
- [Mica Walker](#) - The contrast of elements and use of animations
- [Mugi Dou](#) - Allowing the viewer the choice of light and dark mode is interesting

2. Pages

- Home Page: Displays my name and photo
- About Page: Personal details and downloadable resume
- Education Page: Educational history
- Work History Page: Work history
- Contact Page: My contact information and LinkedIn profile; a contact form that allows the viewer to send me a message through email

5. Color Scheme

- I have decided on this color scheme due to personal preference and the formal tone of the color palette.
- Reference: <https://www.color-hex.com/color-palette/73879>

Color	Hex
	#c3c0c0
	#b29758
	#5c5f7c
	#404472
	#191c40

6. Folder Structure

- All HTML files will be contained in the main directory while the images and CSS files will have their own sub-directories.
